23 JUL 2026

☒ ACHIEVED ☐ NOT EVIDENCED

## UNDERSTANDING OF THE TOOLSETS

- ☒ Demonstrate the value of the toolset to achieve an effective solution to the original "Problem Statement".

## CONDUCTING RESEARCH

- ☒ Identifying a range of relevant research
- ☒ Gathering a variety of sources to determine direction

## DOCUMENTATION

- ☒ Breaking down key decisions to inform production
- ☒ Document and explain key decisions during reviews.

## EASE OF USE

- ☒ Demonstrate the final result to the end-user.
- ☒ Implement changes based on user feedback.

## ORGANISATIONAL SKILLS

- ☒ Recognise importance of naming conventions
- ☒ Identify correct folder structures within the organisation's guidelines

## PERFORMANCE

- ☒ Interpret relevant budgets & constraints
- ☐ Analyse performance & optimise the final asset(s)

## EXCELLENT COMMUNICATION

- ☒ Identify key communication techniques and when to apply them
- ☒ Identify the structure and intent of the various Scrum meetings
- ☒ Demonstrate communication skills and an ability to communicate with peers
- ☒ Communicate your ideas/vision to the team in a coherent and compelling manner.
- ☒ Reflect on the results of playtesting to improve the design of the assets/game.

## RESEARCH

- ☒ Identifying a range of relevant references
- ☒ Gathering a variety of sources to determine direction
- ☒ Breaking down key decisions to inform production

## PROBLEM SOLVING

- ☒ Retrieving a range of relevant sources to aid in troubleshooting
- ☒ Identify timely, creative, & realistic solutions to a range of problems
- ☒ Apply an agreed strategy to work with either a top down, or bottom up methodology.

## COLLABORATION

- ☒ Presenting designs in a clear and concise manner using a well known format, or one that is easy to understand
- ☒ Interpreting feedback given and to ensure a clear path forwards
- ☒ Demonstrate ability to communicate clearly, ideas and intentions for an implementation.

## AGILE GAME DEVELOPMENT

- ☒ Identify core practices of agile/scrum framework
- ☒ Demonstrate an ability to take part in scrum meetings

## VERSION CONTROL

- ☒ Sufficient understanding of how to use version control software
- ☒ Demonstrate an understanding of how version control is used in game dev

## REMOTE / HYBRID WORKING

- ☒ Sufficient understanding of remote work practices
- ☒ Demonstrate an ability to use common remote work tools

## TIME MANAGEMENT

- ☒ Demonstrate ability to adjust the level of fidelity of a task to fit within the timeframe given
- ☒ Identify potential issues with tasks and take appropriate action
- ☒ Estimating time to complete tasks appropriately

## DOCUMENTATION

- ☒ Demonstrate ability to comprehensively break down systems / methods into proper documentation
- ☒ Identify themes and standards of company documentation

## PROJECT MANAGEMENT

- ☒ Sufficient understanding of how to interpret tasks and act upon them
- ☒ Demonstrate sufficient task card management
